

For our prestigious client we are looking for a qualified specialist for a project.

Frontend Architect (m/f/d)

Job-ID: CP-00003866

Job-Ort: 100% Remote

Project details:

- Navigate, configure and build an AEM platform
- Provide oversight and technical project management to ensure quality of work performed
- Aid in team system setup, code reviews, knowledge transfer, mentoring and leadership in challenging project tasks

Working place: 100% remote

Duration: August-October

Working hours: Fulltime

This project is based on a so called retainer model. This means that you will get paid for Fulltime (160 hours/month) and work "on call". If a project becomes available, you will be assigned to that. Even if there is no suitable project for a while, you will still get the payment for the full hours regardless of the hours you have worked.

Technical qualifications:

- AEM Experience with an understanding of core components
- Multiple years of relevant experience
- Intermediate to advanced knowledge of JavaScript principles and fundamentals
- Experience in multiple UI frameworks and libraries
- Strong skills in jQuery, JavaScript, HTML5, CCS3, LESS, SCSS, HTL, SSR loading of assets, Angular, React, and/or Vue
- Thorough understanding of cross-browser compatibility issues and solutions
- Extensive knowledge of Git and Git commands
- Hands on experience with CSS pre-processors (LESS / SASS)
- Hands on experience with Front-End frameworks and task runners
- Ability to juggle multiple projects while meeting stringent deadlines
- Understanding of Accessibility WCAG2.1 framework
