Main tasks:

- Monitoring and administration of the central server infrastructure
- Troubleshooting in the areas of servers, server hosting, Active Directory, Exchange, Teams, OS near/basic software (e.g. FTP, IIS, print servers), virtualization and network
- Second level support of the central infrastructure for corporate IT and internal business partners in Europe
- Coordination and control of external providers / service providers
- Collaboration with project and application teams to support projects and take over new services into operations

Your technical qualifications:

- Completed education as an IT specialist (m/f/d) system integration or completed studies in the IT environment
- Very good knowledge of current Microsoft operating systems and a broad basic knowledge of various IT systems
- Experience with Active Directory services, Exchange and scripting languages such as PowerShell is an advantage
- Good knowledge of ITIL standards
- Fluent English skills

Your personal qualifications:

- Ability to work in a team
- An independent and responsible way of working

Our client offers:

- Performance-based compensation appropriate to your qualifications, with bonuses paid above the standard rate
- Good social benefits
- The opportunity to take on responsible tasks
- Very good personal development opportunities
- Individual training opportunities as well as national and international talent programs
- Flat hierarchies
- A pleasant and modern working atmosphere
- An onboarding plan that ensures an easy start in the company as well as get-to-know events
- A job bike
- Discounts on gym membership
