

Our client is one of Europe's leading integrated healthcare provider. With 26 countries, the company now offers a Europe-wide unique area coverage and is an important contribution to comprehensive health care. This means diverse challenges and flat hierarchies in an international environment. For the location in Mannheim our customer is looking for a qualified:

## Commercial Data Engineer (m/f/d)

**Job-ID: CF-00004063**

**Job-Ort: Mannheim**

### Main Tasks:

- Close collaboration with internal departments in order to improve data usage and identifying common data needs
- Determining the best way to source necessary data elements internally as well as externally
- Building an overview and doing analysis on current reports used centrally as well as in the countries to ensure optimal usage and access to data assets for all relevant stakeholders
- Give analytical evidence as to do certain things, thereby challenging and contributing to decisions based on these insights
- Build a bridge between analytics on the one hand and commercial needs on the other hand, ultimately focusing on having an impact on the commercial success of the company
- Developing elegant solutions for complex problems
- With the possibility of working remotely 2-3 days a week

### Your technical qualifications:

- Experience in database querying and database design
- Data engineering skills in merging datasets by identifying a common denominator, being able to combine data from different datasets and databases
- Very good SQL Scripting, additional programming skills are welcome (R, Python)
- You are detail oriented, have good data entry, research, and analytical skills
- Experience in working with IQVIA data and/or medical information
- Very good knowledge of Tableau
- You have a very good command of English to be able to collaborate with international teams to solve problems
- You have excellent interpersonal and communication skills and feel comfortable working in an international environment
- Good knowledge of German is a plus

### Our client offers:

You can expect interesting tasks in a modern, sustainable and international environment with individual development potentials. Other than an attractive salary, you can look forward to a reduced gym membership or using a job-bike.
