Our customer is a company in the health sector specialized in product specific e-commerce with headquarters in the Rhine-Neckar area. It is an innovative, successfully established and steadily growing company with over 400 employees and over 4 million customers in Germany.

For his location in Mannheim, our customer is currently looking for a qualified and motivated:

Product Owner SAP ERP (m/f/d)

Job-ID: CF-00003625
Job-Ort: Mannheim

Main Tasks:

- Responsible for recording and designing new business requirements in a complex SAP environment
- Developing possible solutions in close cooperation with the development team
- Responsible for ensuring coherent and consistent process integration for time-critical processes as well as for coordinating and prioritizing the services with the stakeholders in the business units
- Analysis and elaboration of business and technical requirements in the areas of sales and materials management as well as for projects such as the introduction of the electronic prescription or the connection of a new distribution centre
- Coordination of development requirements with internal and external SAP developers
- Customizing of the ERP landscape in close cooperation with the specialist department
- Ensuring the quality of the product and the commissioned developments
- Ensuring a smooth flow to the adjacent systems
- Support of ERP users as well as training for key users

Your technical qualifications:

- Completed degree in (business) informatics or comparable training
- Several years of professional experience in the implementation of complex business processes in the area of order-to-cash in SAP
- In-depth knowledge of the SAP modules SD and MM, in particular sales order processing, shipping and billing
- Demonstrable practical knowledge in IT requirements management and/or IT process management as SAP SD/MM consultant including customizing
- Experience with the use of agile or lean process models in software development and project management, e.g., Scrum
- Good overall view for early recognition of cross-functional impacts of planned IT activities
- Cross-module knowledge of related SAP systems/modules (e.g. CRM, EWM, FI/CO) as well as in S/4HANA is an advantage
- Fluent in English, good German (at least B2)

Your personal qualifications:

- Very good analytical skills

- Strong customer and process orientation

Our client offers:

- Flexible working hours with one day of home office per week
- Start-up flair with regular (networking) events
- Well-lit offices with a football table, Nintendo Switch, relax lounge and the choice between an open-plan or 4-person office
- Modern tech equipment (height-adjustable desks, mobile phone, free choice of IDEs and work equipment such as mouse, keyboard, etc.)
- Flat hierarchies, communication as equals, first name basis and no dress code
- Air-conditioned offices, located near the city centre and the main train station, but also near green areas
- Individual training and development opportunities
- Fresh fruit, drinks and coffee
- Exclusive employee discounts
