Our customer is a company in the health sector specialized in product specific e-commerce with headquarters in the Rhine-Neckar area. It is an innovative, successfully established and steadily growing company with over 400 employees and over 4 million customers in Germany.

For his location in Mannheim, our customer is currently looking for a qualified and motivated:

Product Owner SAP EWM (m/f/d)

Job-ID: CF-00003626
Job-Ort: Mannheim

Main Tasks:

- Responsible for recording and designing new business requirements in a complex SAP environment
- Developing possible solutions in close cooperation with the development team
- Responsible for ensuring coherent and consistent process integration for time-critical processes as well as for coordinating and prioritizing the services with the stakeholders in the business units
- Analysis and elaboration of business and technical requirements from the logistic areas as well as in projects such as the implementation of a new distribution center
- Active participation in the transformation from SAP EWM 9.1 to S/4HANA Embedded EWM
- Customizing of the EWM landscape in close cooperation with the business units
- Coordination of development requirements with internal and external SAP developers as well as the interface function to external service providers
- Ensuring the quality of the system and the commissioned developments through functional and integration testing
- Ensuring a smooth workflow to the adjacent interfaces
- Support of EWM users as well as training for key users

Your technical qualifications:

- Completed degree in (business) informatics or comparable training
- Several years of professional experience in the implementation of complex business processes in the area of logistics in SAP
- Extensive knowledge of the SAP module EWM/WM
- Deep understanding of logistics processes and their customizing
- Demonstrable practical experience in IT requirements management and/or IT process management as SAP EWM consultant
- (Migration) experience in S/4HANA is an advantage
- Good overall view to identify cross-functional impacts of planned IT activities at an early stage
- Experience with the use of agile or lean process models in software development and project management, e.g., Scrum
- Fluent in English, good German (at least B2)

Your personal qualifications:

- Very good analytical skills
- Strong customer and process orientation

Our client offers:

- Flexible working hours with one day of home office per week
- Start-up flair with regular (networking) events
- Well-lit offices with a football table, Nintendo Switch, relax lounge and the choice between an open-plan or 4-person office
- Modern tech equipment (height-adjustable desks, mobile phone, free choice of IDEs and work equipment such as mouse, keyboard, etc.)
- Flat hierarchies, communication as equals, first name basis and no dress code
- Air-conditioned offices, located near the city centre and the main train station, but also near green areas
- Individual training and development opportunities
- Fresh fruit, drinks and coffee
- Exclusive employee discounts
