

Our client is one of the leading networks for vouchers and offers. At his location in the technology region Karlsruhe, he develops high-class e-commerce solutions to improve the business of the over 1100 partner shops in Europe. As an employer, our customer provides interesting tasks in a positive work atmosphere and a lot of benefits.

For his location in Karlsruhe, our customer is currently looking for a qualified and motivated:

Python Developer Big Data Environment (m/f/d)

Job-ID: CF-00003619

Ort: Karlsruhe

Main Tasks:

- You are responsible for the optimization and the further development of the existing event-stream-processing-solutions
- You provide high quality data from different sources for the analysis by the users.
- Therefore, you apply different services depending on the requirements
- You are responsible for the development, deployment, monitoring and operation of the software solutions
- You use the gained insights to make the development of the data flow more reliable
- You are always in close contact with the recommendations team
- These already existing complex structures of our client are appealing to you and you would enjoy developing them further

Your technical qualifications:

- Finished university degree in the field of informatics or a comparable qualification
- Around 3-5 years of work experience as a (Big) Data Engineer
- Couple of years' experience in programming with Python or Java as well as Kafka and Spark, alternatively other streaming tools
- Experience with targeted use of AWS- or other cloud-based services
- Experience in modelling of solutions for Big Data Services
- Experience in analysing of data with tools such as SQL, HiveQL or Notebooks
- Experience with ETL-tools such as talent
- Fluent in English
- German language skills are a plus

Your personal qualifications:

- Independent and reliable way of working
- High customer and service orientation
- High quality consciousness

Our client offers:

Flexible working hours, 30 days of vacation days, interesting further education opportunities. Moreover, you receive a proper salary and benefit from the company's pension scheme. Lastly, a shared catering lunch on Fridays, drinks for free, after work get-togethers and company events round off the benefits.
