Our client, based in Karlsruhe, is an internet service provider and data centre operator. They have over 75.000 business and private clients worldwide. Their main focus is on providing webhosting, virtual and dedicated servers as well as their support through management services. Our customer strives for continuous development and stands for high quality standards.
For a position that can be done 100% remotely (but does not have to), our client is looking for a:

Python Software Engineer Cloud Services (m/f/d) - 100% remote possible

Job-ID: CF-00003618
Job-Ort: Karlsruhe

Tasks:
The project realizes a part of a vision of an automatic data centre. The focus lies on a completely automatic activation of servers and the depiction of the life cycle of the hardware. An additional challenge is given by over 90 Pops which will be a crucial part of the future infrastructure. Our customer works agile and spread out, relies on self-responsibility and ensures the quality through sophisticated CI Pipelines and Peer Reviews.

- Developing and providing safe and high availability services within the eco system of our customer's cloud
- You take care of services such as CloudDNS and Baremetal Provisioning by developing Backend Services based on Python, Django and Django REST Framework
- You design the future of the hosted DNS Services
- Securing the correct and quick distribution of data
- Capturing fine statistics and provision of best performance for high demands

Your technical qualifications:

- Finished technical education (HTL, FH, TU) or relevant work experience
- Very good knowledge of using Python
- Experience with Linux as well as an understanding of the interaction between network, operating system and software
- Experience in dealing with relational data bases (MySQL, MSSQL, PostgreSQL,...)
- Knowledge in dealing with automation tools are of advantage (Ansible)
- Fluent in English
- German language skills are a plus

Your personal qualifications:

- Independent and reliable way of working
- High customer and service orientation
- High quality consciousness

Our client offers:
You can expect a familial and supporting work environment where your personal development and further

education is a priority. Moreover, you can look forward to a salary above average and generous leisure spaces.
