Our client, based in Mannheim, is a fast-growing SaaS startup with now over 200 employees. With holistic software-as-a-service solutions, global companies are enabled to create transparency, efficiency and trust along their value chain, especially at product and supplier level. The central growth driver here is the company's own cloud technology platform, which is already being used successfully by more than 1,000 customers.
For his location in Mannheim, our customer is looking for a qualified:

Software Architect / Senior TypeScript Backend Developer (m/f/d)

Job-ID: CF-00005144
Job-Ort: Mannheim
Remoteanteil / Home Office: 40% bis 60%

Main Tasks:

- Development, integration and architecture of solutions and services in the area of the customer's own hub (end-to-end service management)
- Rounding out the work process of agile teamwork, with constant further development taking place here through collaboration with other experts

Your technical qualifications:

- Experience with JavaScript, TypeScript and NodeJS
- Experience in database design (e.g. MySQL or Mongo DB)
- Knowledge with enterprise applications
- Strong English language skills, both written and spoken
- German language skills nice to have

Your personal qualifications:

- Ability to work in a team
- An independent way of working

Our client offers:

- An international motivated team in a dynamic work environment
- A flexible work schedule
- Modern offices
- First-class equipment
- Regular team events
